

ADULT CAT

Adult cats need less calories, protein, and fat than kittens. So it's important to give cats food specially adapted to help them maintain their optimal health and prevent excessive weight gain. In addition to providing all the basic ingredients cats need, Pronature has adjusted the protein and fat content (30% and 18%, respectively) of this formula to satisfy the specific needs of adult cats.

INGREDIENTS: Chicken meal, ground yellow corn, chicken fat preserved with mixed tocopherols, corn gluten meal, ground whole wheat, beet pulp, whole flaxseeds, natural flavor, dehydrated yeast culture, lecithin, choline chloride, potassium chloride, calcium propionate, salt, dehydrated cranberries, rosemary extracts, *Yucca schidigera* extracts, whole thyme, vitamins and minerals.

GUARANTEED ANALYSIS:

Crude protein	min. 30%	Moisture	max. 12%
Crude fat	min. 18%	Crude ash	max. 7%
Crude fibre	max. 3%	Magnesium	max. 0.10%

Available in a range of practical sizes: 3 kg/6.6 lb and 6 kg/13.2 lb.
